

Vividia™ Ablescope® VA-B2 AirBox WiFi Converter for iPad iPhone

User Guide

2016-11-10

Introduction

Vividia Ablescope VA-B2 AirBox WiFi Converter for iPads and iPhones is designed for customers who want to use our Vividia™ Ablescope® articulating borescopes (Models: VA-400, VA-800, VA-920 and VA-980) and microscopes (Model: V1-PS, V2, and V2-S) with their iPhone and or iPad. It works with UVC (USB Video Camera) that has MJPEG format output. **VA-B2 AirBox** convert the USB camera signals into a WiFi hot point, and iPad, iPhone or Android devices with WiFi functions can connect to and one can use our free APPs (AirBox -Vividia Ablescope) to see preview live images, take pictures and record videos.

The Apps for Vividia™ VA-B2 WiFi AirBox :First download our APP and install on your devices:

Devices	App Name	Download Address
Android	AirBox.apk	vividia-tech.com
iPhone, iPad	AirBox - Vividia AbleScope	App Store

1, Connection to A Power Source:

Caution: Always connect camera to wifi converter first and then plug in the power supply!

- 1-1, Plug a USB camera into the USB port of **VA-B2** WiFi converter box.
- 1-2, Plug in the charging cable into WiFi converter through Micro USB port, and the

other side of the cable into a power supply of 5V DC (an USB port of power adapter with output of 5V2A), or a power bank or an USB port of PC.

- 1-3, A power indicator light will be on and after 10 seconds the WiFi signal indicator light will be on.

2, Connect WiFi and Open APP:

- 2-1, On a WiFi device (iPhone, iPad or Android phone, tablet), search WiFi hot spots and find AirBox (ID: **CH_##:##:##**), click to connect.
- 2-2, The password is **12345678**
- 2-3, Then go back to home screen, click the App icon to open the image window

 AirBox.apk	
Android	iPhone
